Subject: What data from Sam do you want added to the map?
Attachments: 4, GW sampling map, results through 2013.pdf

Hi Cheryl,

3help has given me ownership of all files on Sam's computer, and I've perused this data related to CSD. Of course there are many files from Ex. 6 Personal Privacy (PP) but I am wondering if the data you want added comes down to just what is on the attached pdf file from Ex. 6 Personal Privacy (PP). The image shows locations of 3 private wells and 5 CSD monitoring wells and nitrate results. There is lots of other information pertaining to surface water monitoring results of Ten Mile (Creek? Stream?), soil P and K tests for individual application fields for individual soil types, manure application events per field, etc.

For your purposes, would you just want well nitrate results added to the map for the 3 private and 5 CDS monitoring wells? Is there some other information you recall that would be useful adding the map I sent you Monday?

Milo
